Galaxy Trio

The Galaxy Trio — Vapor Man, Meteor Man and Gravity Girl — are in their ship, Condor I, patrolling space to maintain law and order and to render aid wherever needed.

In short order Condor I reaches the source of the signal — an old model spaceship which apparently has crash-landed on the bleak and forbidding planet of Sirion.

A man suddenly steps from the open hatch holding a laser gun. "We had no choice!" he says with a grim smile. "It's all we could find after we broke out of prison!"

Suddenly a distress signal comes through on the scanner in intergalactic code. It is immediately processed by Meteor Man on a computer, and the trouble spot pinpointed.

There is no sign of life aboard the ship as the Galaxy Trio approaches. "They shouldn't have tried to come so far in that ancient and obsolete ship," remarks Gravity Girl.

"Don't try anything," he warns. "We're taking over your ship!" Hearing footsteps behind them, the Galaxy Trio glance around to face the muzzles of two more laser guns.

IT'S TOO LATE FOR THAT, BIRDMAN!

KEYS OF KNOWLEDGE

THE KINKAJOU

This animal is nicknamed "honey bear" because of the way in which it smacks its lips in pleasure when eating juicy fruit.

The Kinkajou enjoys variety in its menu. Besides fruit and plants, it dines upon birds, small mammals and other animals.

© 1963 BY WESTERN PUBLISHING COMPANY, INC.

The South American Kinkajou has a long powerful tail with which it can travel through treetops much like the monkey.

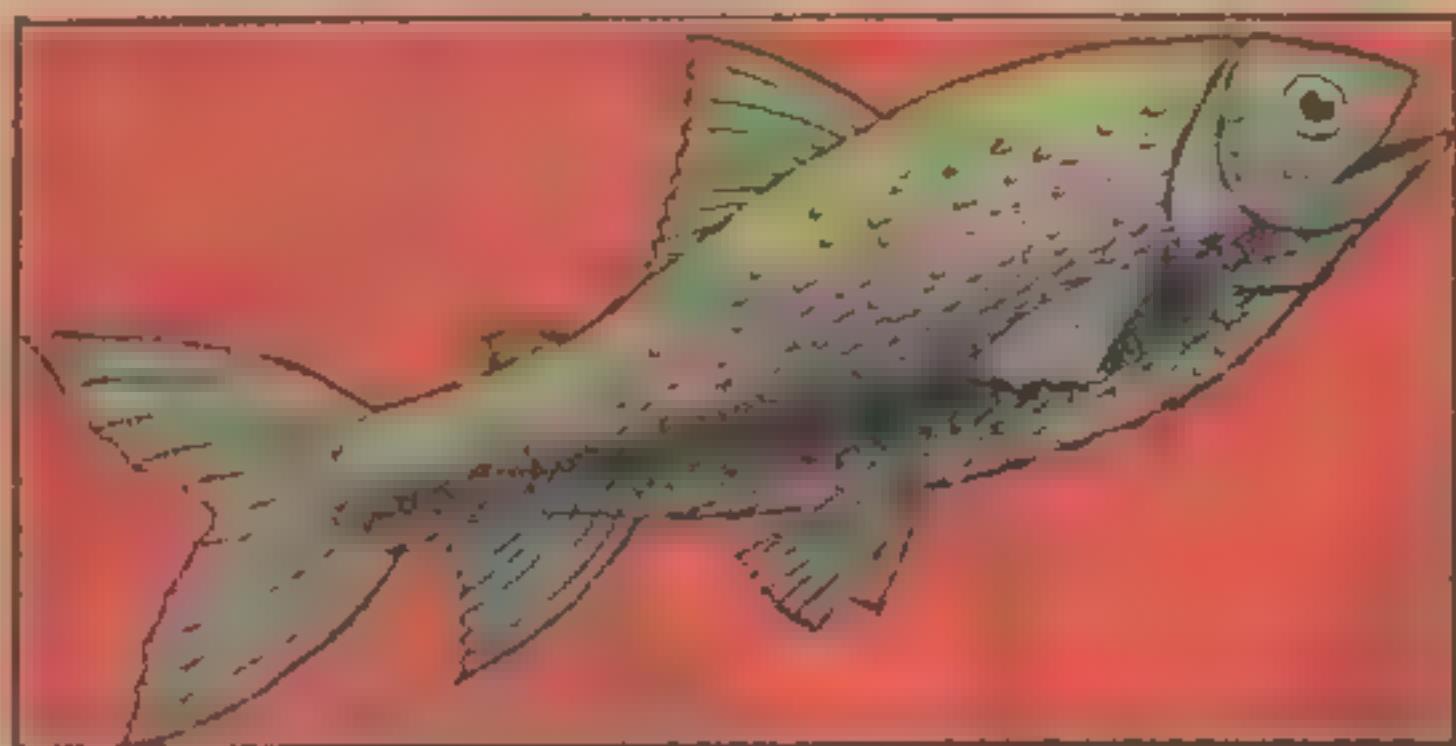

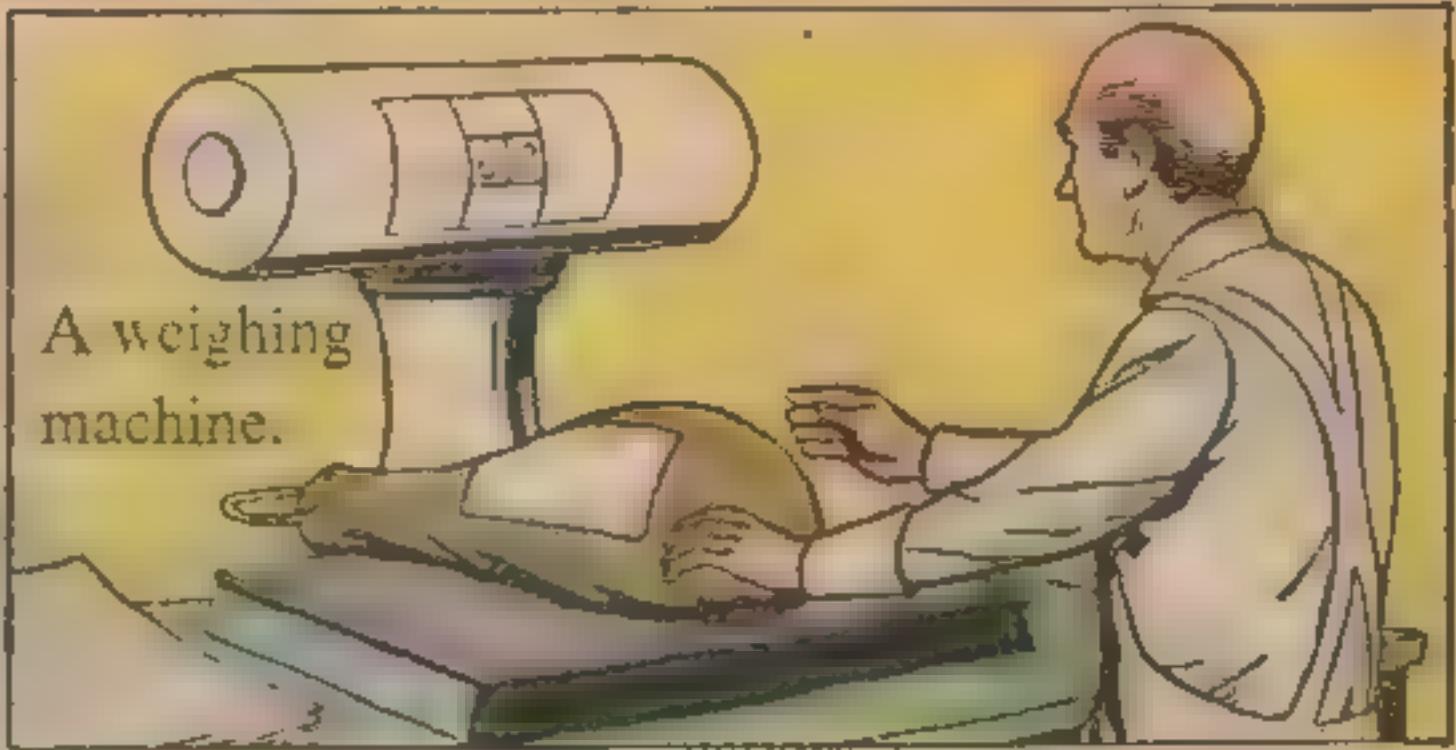

The Kinkajou has dark gold or brown fur that is popular with women as an adornment. Large numbers are trapped yearly.

Kinkajous can be tamed to become excellent pets. In captivity, they have been known to live healthily for nineteen years.

DINOSAURIA

Styracosaurus

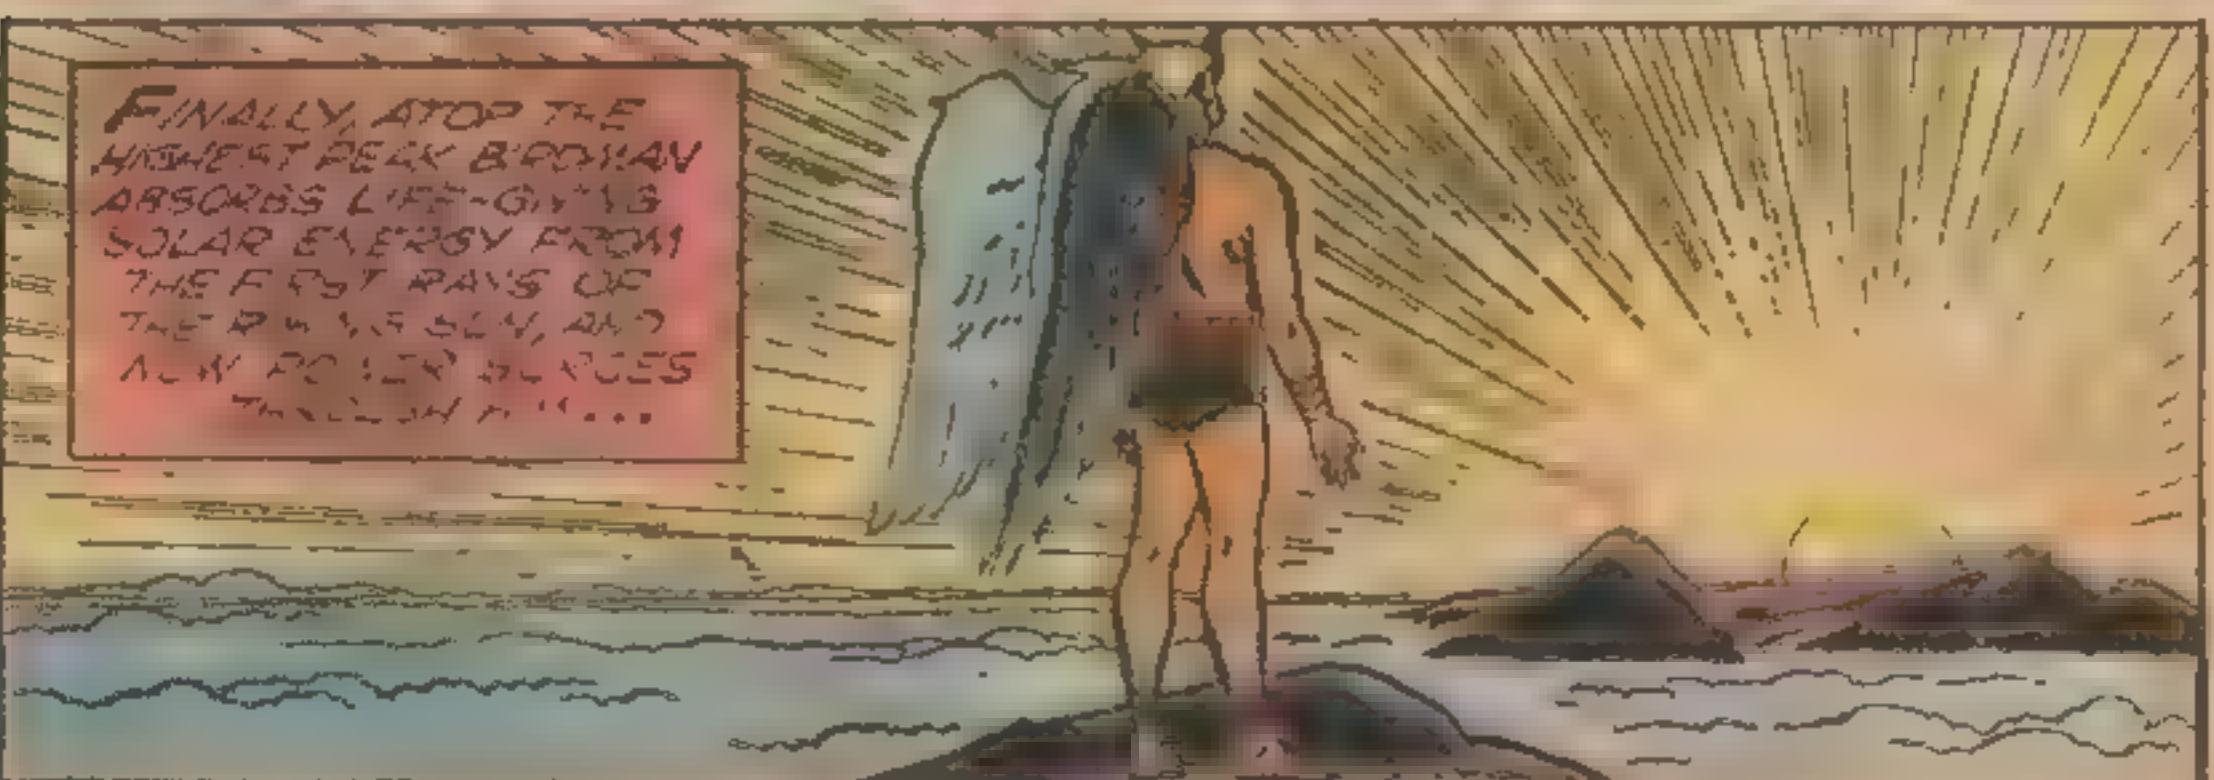

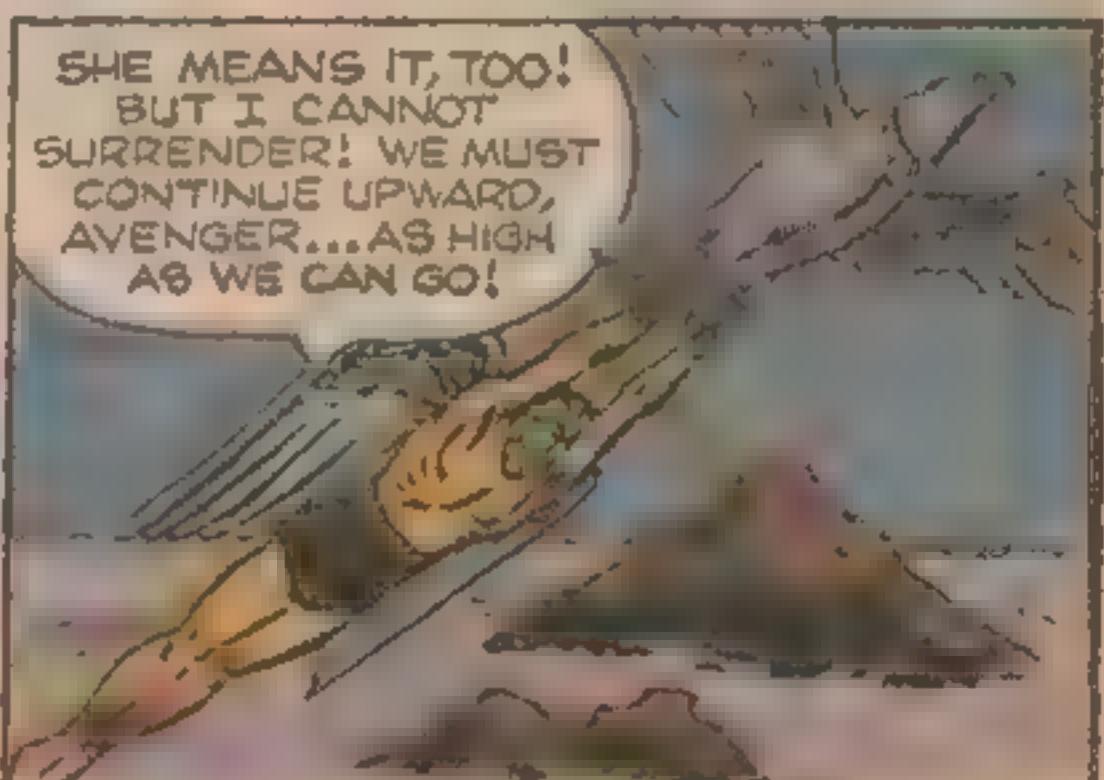

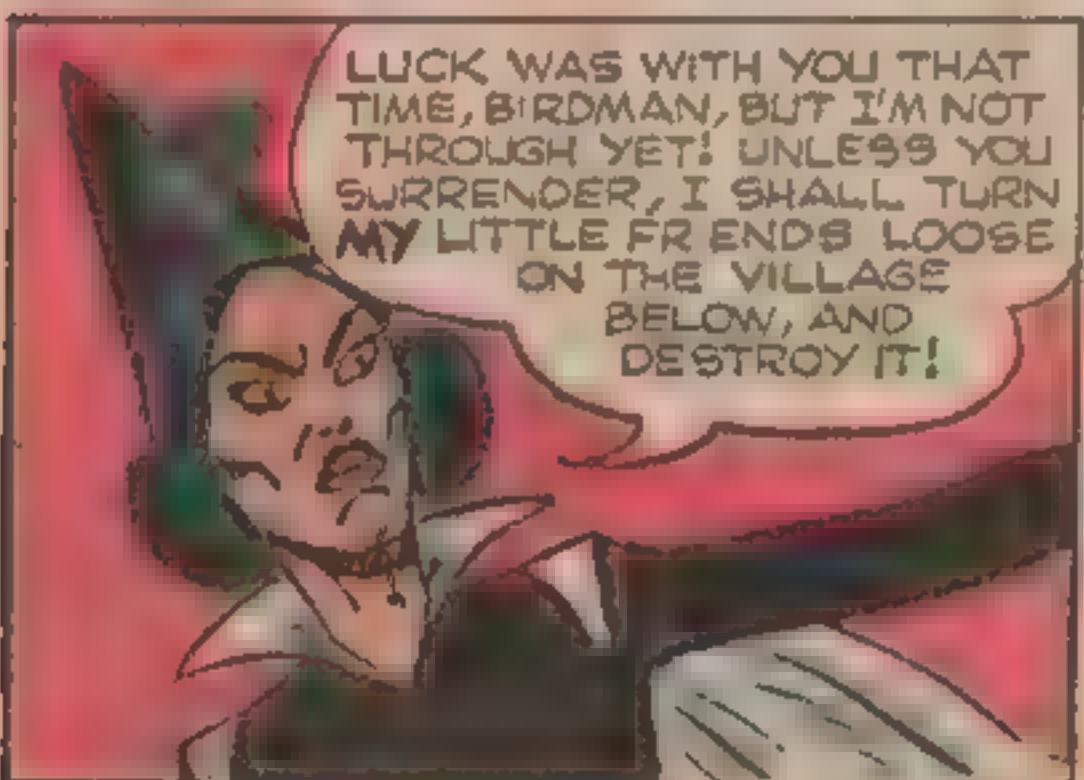

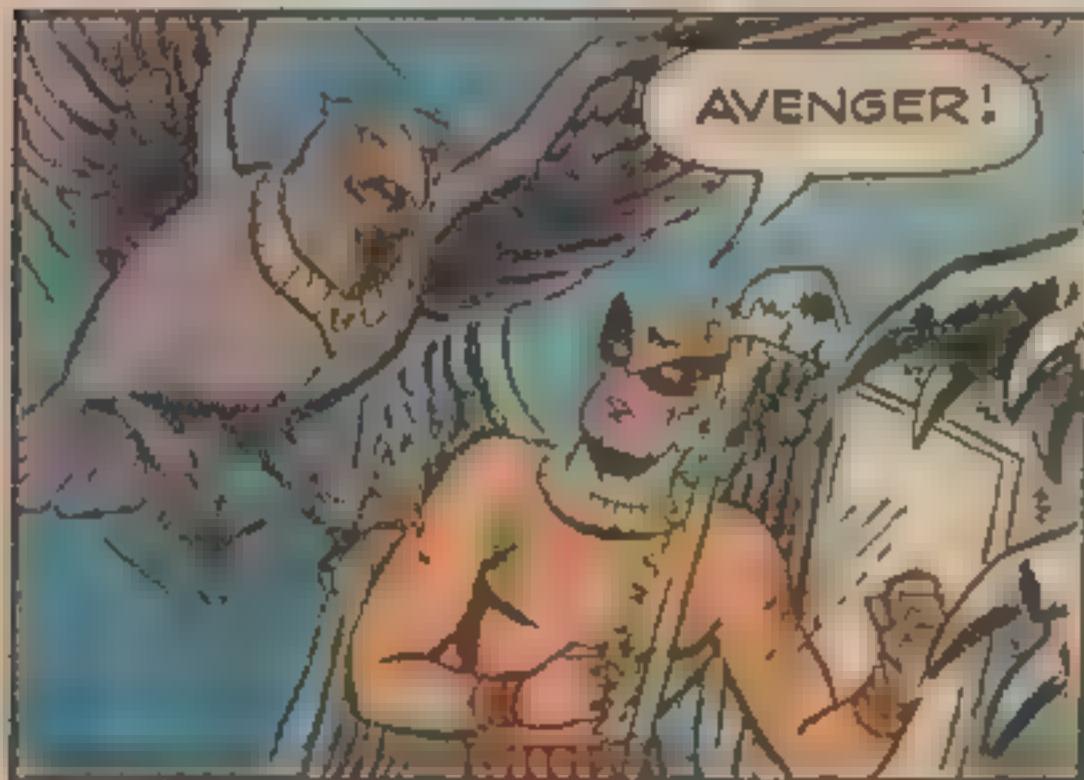

With seven sharp horns fronting and rimming its head, the styracosaurus was a dangerous dinosaur. Living in the Upper Cretaceous period some seventy million years ago, this nearly twenty-foot-long creature, despite its fierce appearance, was a vegetable-eater. Its teeth sat in rows and worked like scissors, cutting the plant food rather than crushing it. It traveled in large herds along the many swamps of that ancient period and wandered onto the dry, shrub-covered plateaus. Its horns, and head shield or bone "collar," marked it as one of a varied group of horned saurians.

The length from the tip of the styracosaurus's nose to the end of its collar was seven feet. The spike-nasal horn rose almost two feet.

Even the mighty flesh-eaters feared the styracosaurus, for one jab or slash of its horns could tear apart its attacker.

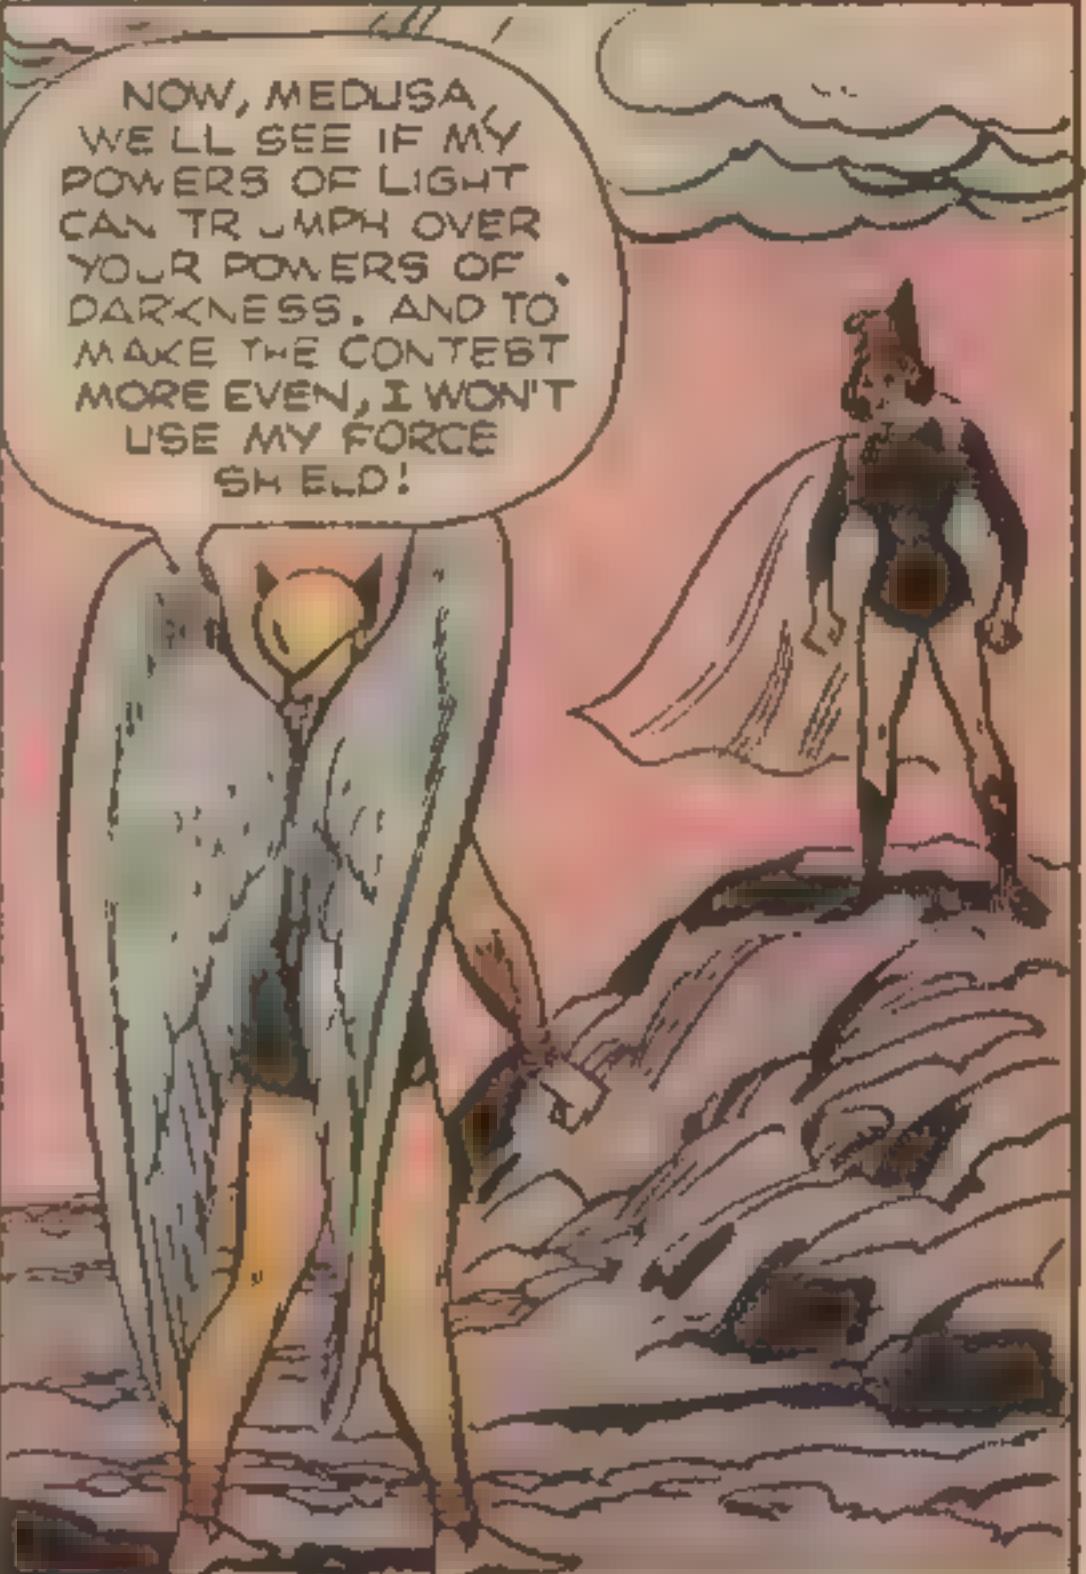

MEDUSA'S CREATURES MAY BE IMPERVIOUS TO THE SPEARS AND BULLETS OF THE VILLAGERS, BUT LET'S SEE HOW THEY STAND UP AGAINST SOLAR BLASTS!

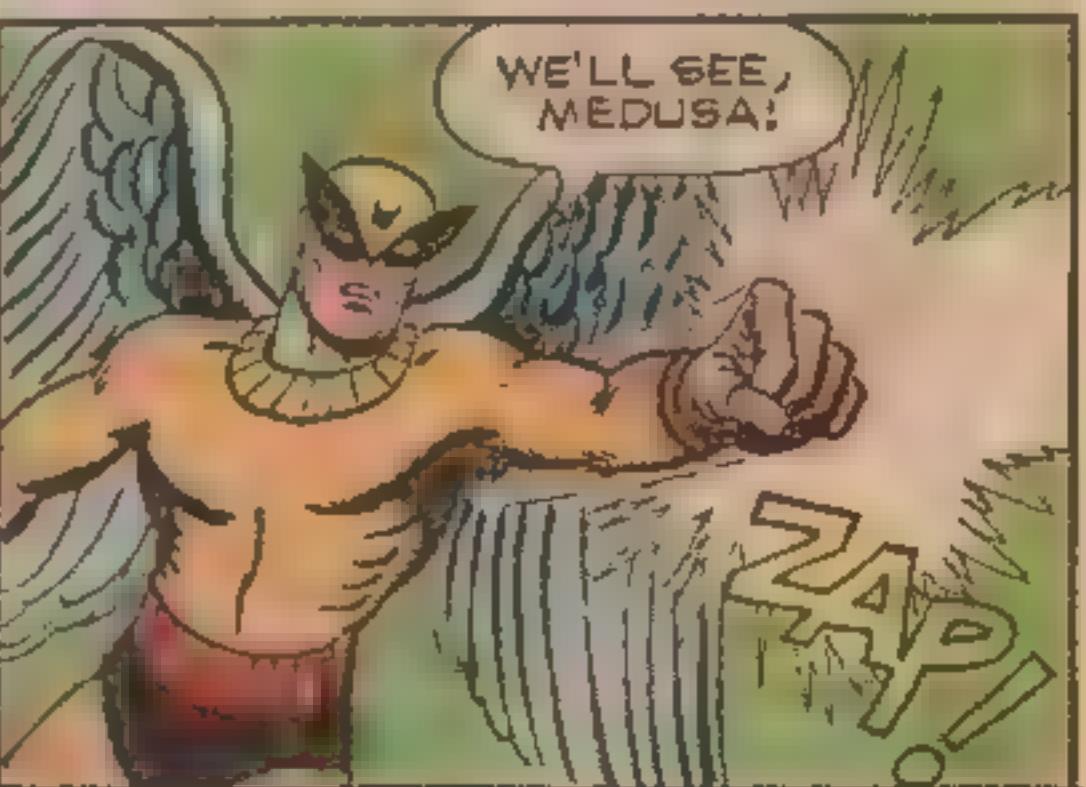

AFTER ALL, THEY'RE SNOWMEN, AND SNOWMEN MELT... EVEN ABOMINABLE ONES!

NOW, MEDUSA, WE'LL SEE IF MY POWERS OF LIGHT CAN TRUMPH OVER YOUR POWERS OF DARKNESS. AND TO MAKE THE CONTEST MORE EVEN, I WON'T USE MY FORCE SHIELD!

YOUR CHIVALRY TOUCHES ME, BIRDMAN, BUT CONSIDER YOURSELF DOOMED!

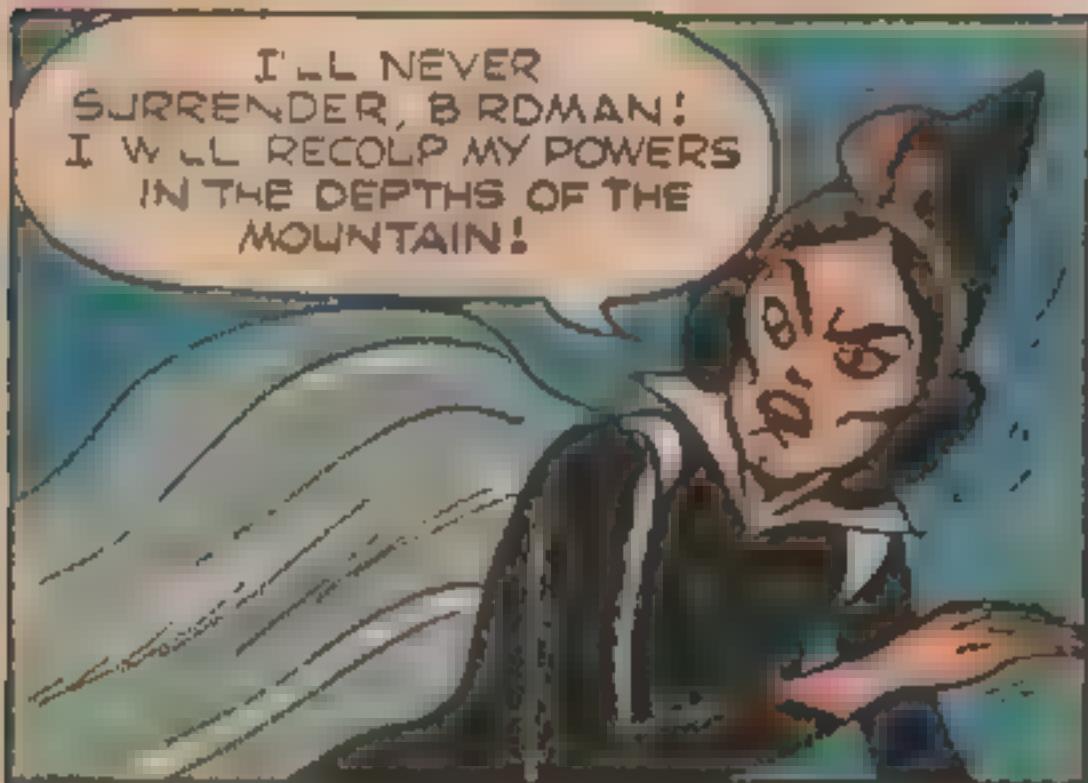

WE'LL SEE, MEDUSA!

ZAP!

LITTLE BY LITTLE, BIRDMAN'S ENERGY FORCES BACK MEDUSA'S POWER UNTIL IT IS DISSIPATED!

I'LL NEVER SURRENDER, BIRDMAN! I WILL RECOLP MY POWERS IN THE DEPTHS OF THE MOUNTAIN!

WITH A MIGHTY THUNDERCLAP, MEDUSA DISAPPEARS INTO THE CAVE FROM WHICH HER SNOW CREATURES HAD EMERGED!

THE REVERBERATION TRIGGERS MILLIONS OF TONS OF SNOW ON THE MOUNTAIN ABOVE...

... WHICH ROARS DOWN, COVERING THE CAVE'S ENTRANCE FOR ALL TIME!

GRAWWK!

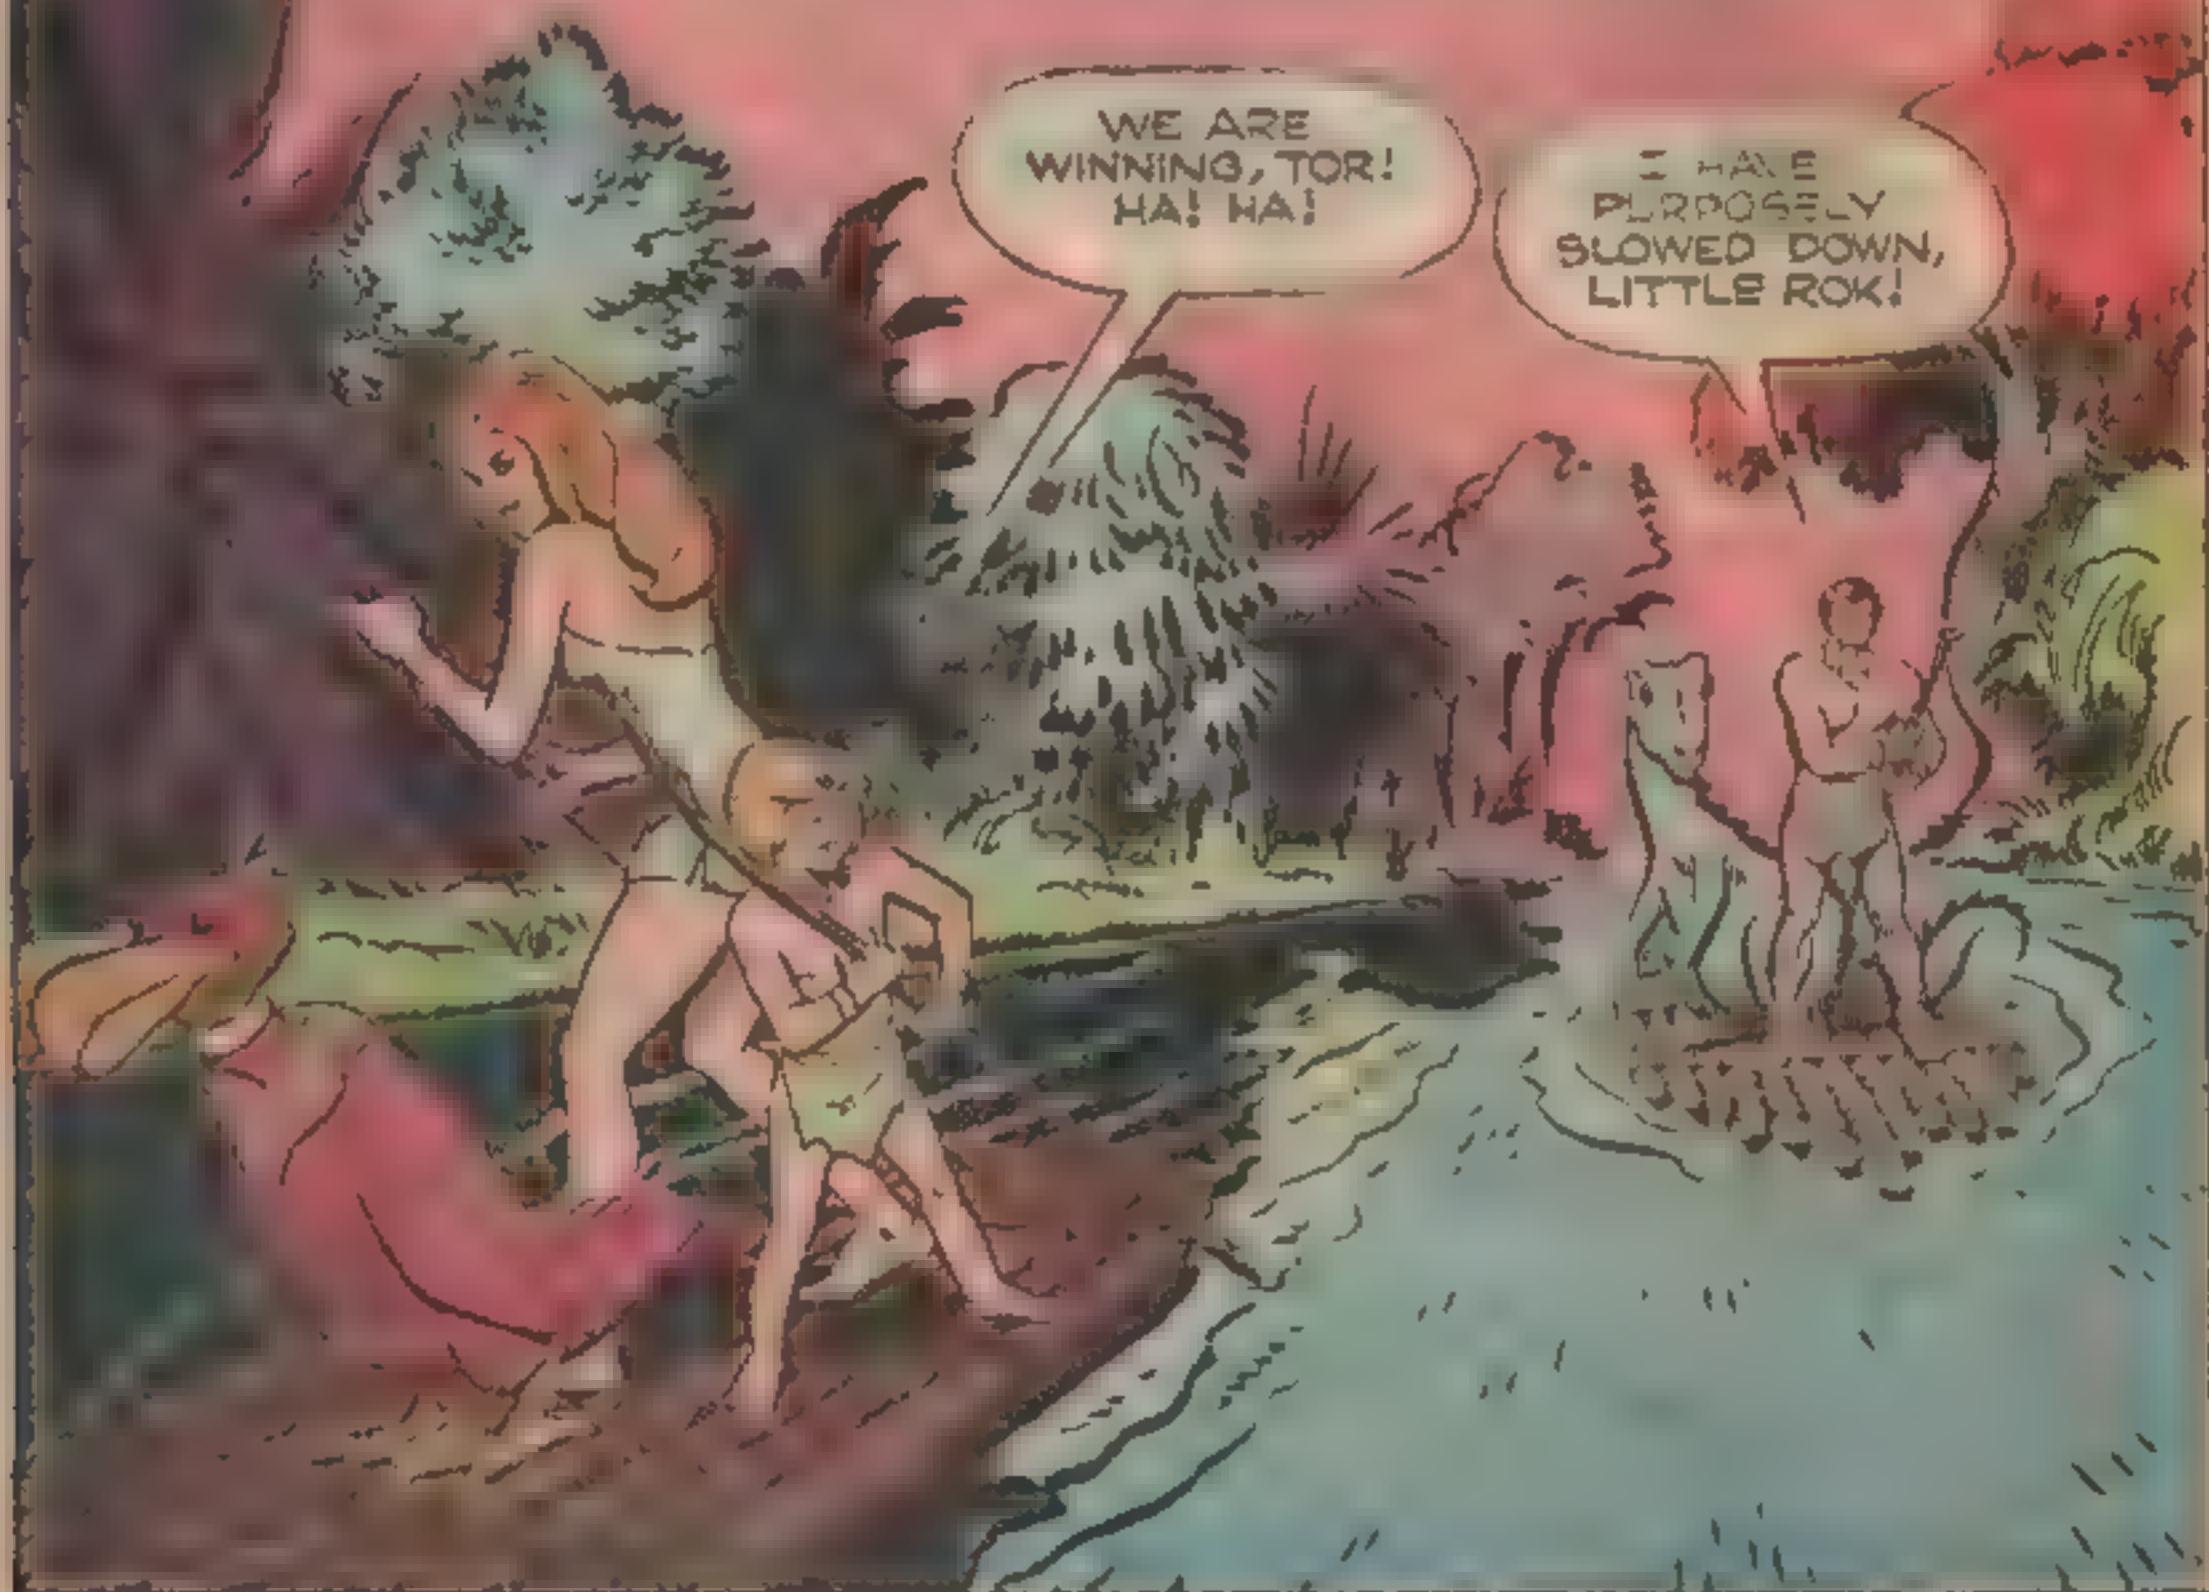

SHE'S GONE, AVENGER, AND LET'S HOPE SHE'S GONE FOREVER! BUT WE MUST BE CONSTANTLY ON GUARD AGAINST HER POWERS OF EVIL, JUST IN CASE SHE DOES ESCAPE FROM HER SEALED DOOM!

CHUCKLE TIME

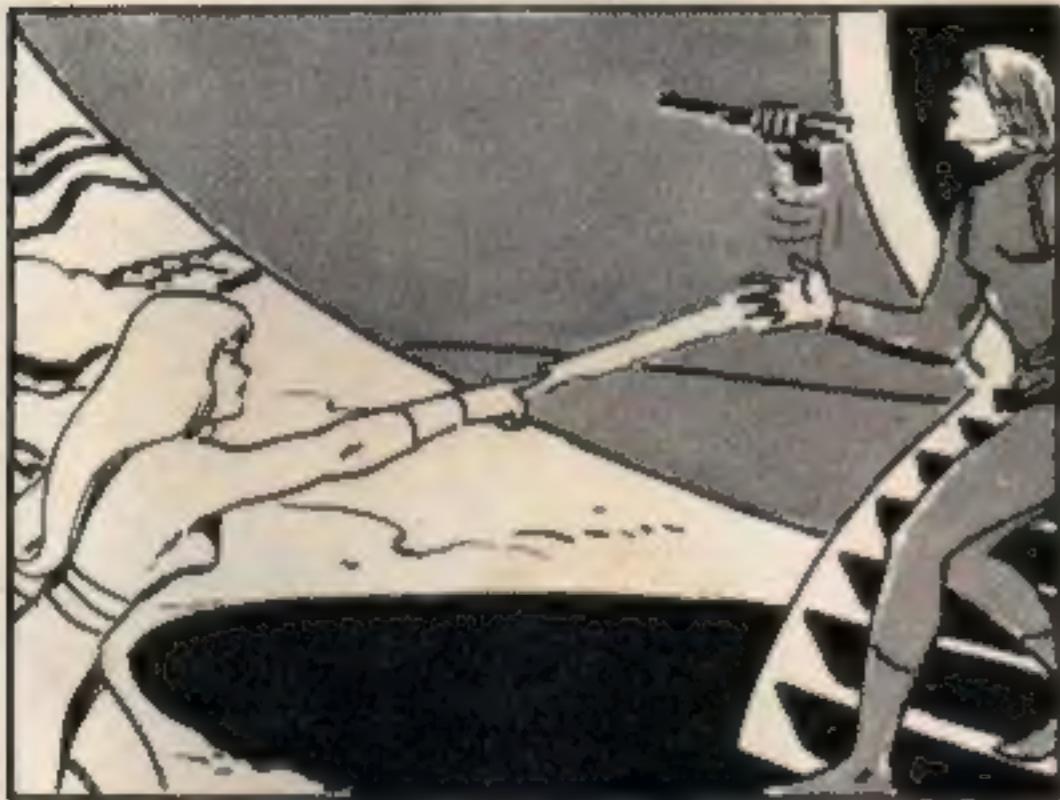

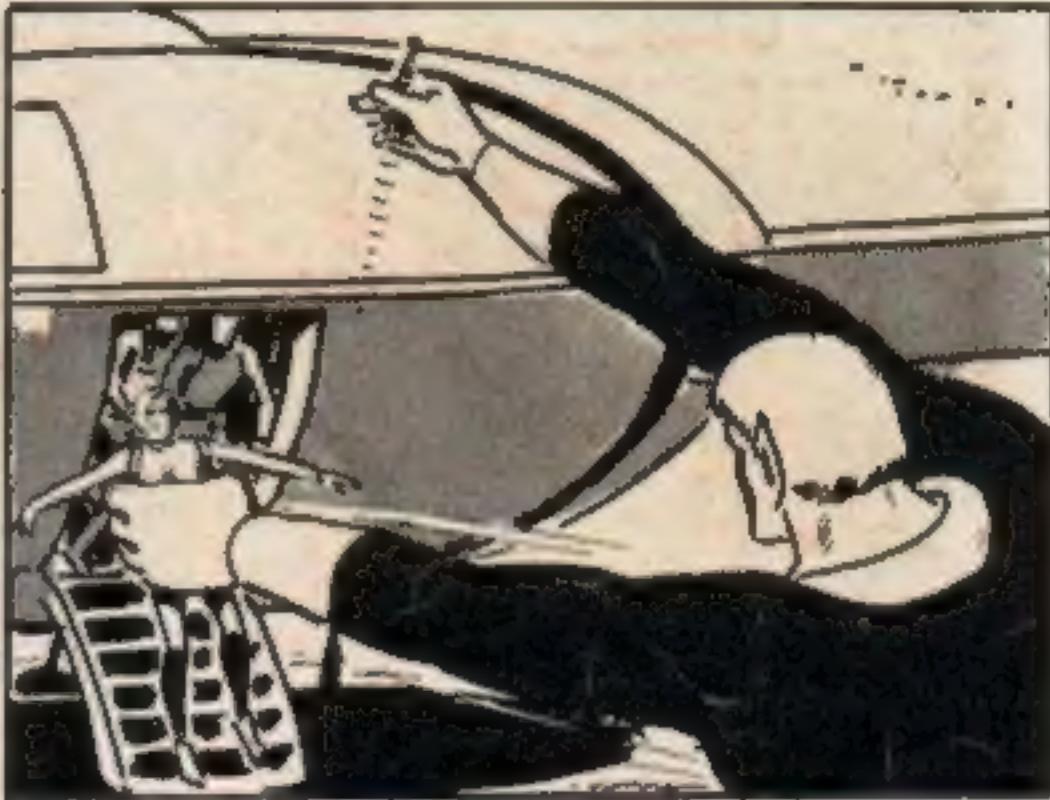

Knowing that any sudden move on their part could be fatal, Vapor Man, Meteor Man and Gravity Girl watch tensely as the three convicts make their way toward Condor I...

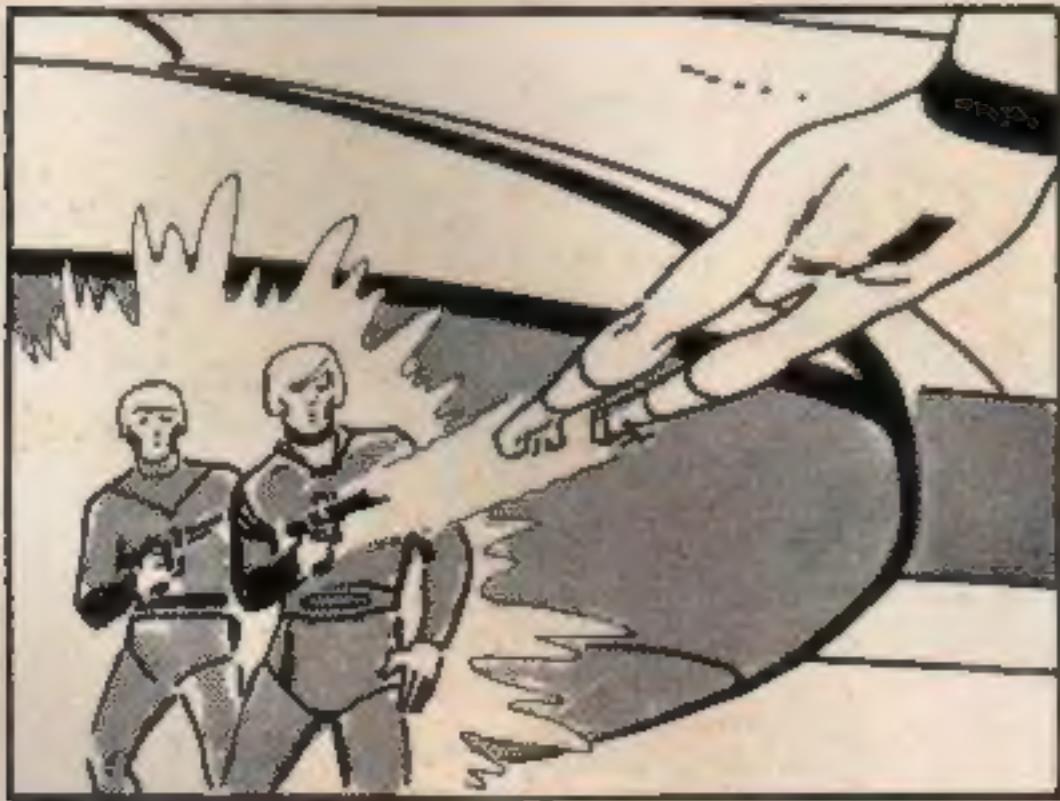

As the last convict is about to enter the hatch, and during the split second his guard is down, Vapor Man makes his move, streaking upwards at incredible speed.

The convict automatically swings his gun up to fire, but Gravity Girl has already directed her gravity force at the weapon, and it is jolted up and out of his hands.

At the same time, Meteor Man, who can elongate any part of his body, stretches out to grab the laser with one hand, and with the other hand he grips the startled convict.

As the other two convicts rush out to see the cause of the trouble, they are met by a freezing blast from Vapor Man. Frozen, the men are no longer a menace to anyone.

It is all over in a flash... a typical example of the split-second teamwork that makes the Galaxy Trio famed and feared throughout space as enemies of evil.
